Vitamins and minerals

Description

While making their beers, Instock talked to their brewer about beer broth. This is the nutritious malt residue that remains after brewing beer. Together with the Ribbink bakery, Instock Granola was developed and available in two flavors: almond, honey, cinnamon and coconut, chocolate, and nuts. Let's make cereal impact together!

The granola is for sale at Albert Heijn supermarkets and the Instock restaurants.

Examples of end products

Granola almond, cinnamon, honey

Granola coconut, chocolate, nuts

Pros and cons

- + Circular economy
 - + Creating a sustainable and healthy snack
 - + Upgrading of residual flows
-
